1. Welcome

The Candidate Talent Pool turns the people you did not hire into a searchable asset. Instead of starting from zero every time a position opens, you ask a better question: "Do we already know someone who could fit this role?"

This guide walks you through every tab, step by step, with screenshots. All names and numbers shown are fictional demo data.

Who this guide is for

- HR and recruiting teams who want a simple, low-cost system inside Google Sheets.
- Small and mid-size companies that keep candidate CVs in folders or email and cannot easily find them later.
- Operations and process-improvement leaders who want a data-driven recruiting process.

Demo and Premium editions

Two editions exist. The Demo shows every feature so you can judge the system, but the premium tabs are locked. Premium unlocks everything.

Feature	Demo	Premium
Start Here guide, license and contact card	✓	✓
Dashboard with 4 live charts	✓	✓
Add Candidate form and Candidates database	✓	✓
Positions tab and dropdown Lists	✓	✓
Find Candidates: ranked matches, score out of 100	🔒 Visible, locked	✓
Follow-Up logging and "due now" list	🔒 Visible, locked	✓
Contact Log: automatic history of every contact	🔒 Visible, locked	✓
Editable scoring weights	🔒 Visible, locked	✓
Edit access, your own data, your own license	No	✓

Want the full version?

Message me for Premium access: s.mohammad.zargar@gmail.com or [linkedin.com/in/mohammad-zargar](https://www.linkedin.com/in/mohammad-zargar).

2. Quick start in 3 steps

Everything in the workbook follows a simple cycle.

Step	What you do	Where
1. Add	After each hiring round, register every candidate, hired or not.	Add Candidate tab
2. Find	When a position opens, pick it and see a ranked list of people you already know.	Find Candidates tab (Premium)
3. Follow up	Contact the best matches and log each conversation.	Follow-Up tab (Premium)

Before you start

- Upload the .xlsx file to Google Drive and open it with Google Sheets. Make your own copy: File > Make a copy.
- The Add Candidate and Follow-Up buttons run a small script, so they need edit access. The first time you click one, Google asks for permission: choose your account, then Advanced, then allow.
- Yellow cells are the cells you type in. Everything else calculates by itself, so please do not overwrite formulas.

3. Tour of the workbook

3.1 Start Here

Your first page. It shows who created the system, what it does, the three steps, a guide to each tab, the full written instructions, and the license at the bottom.

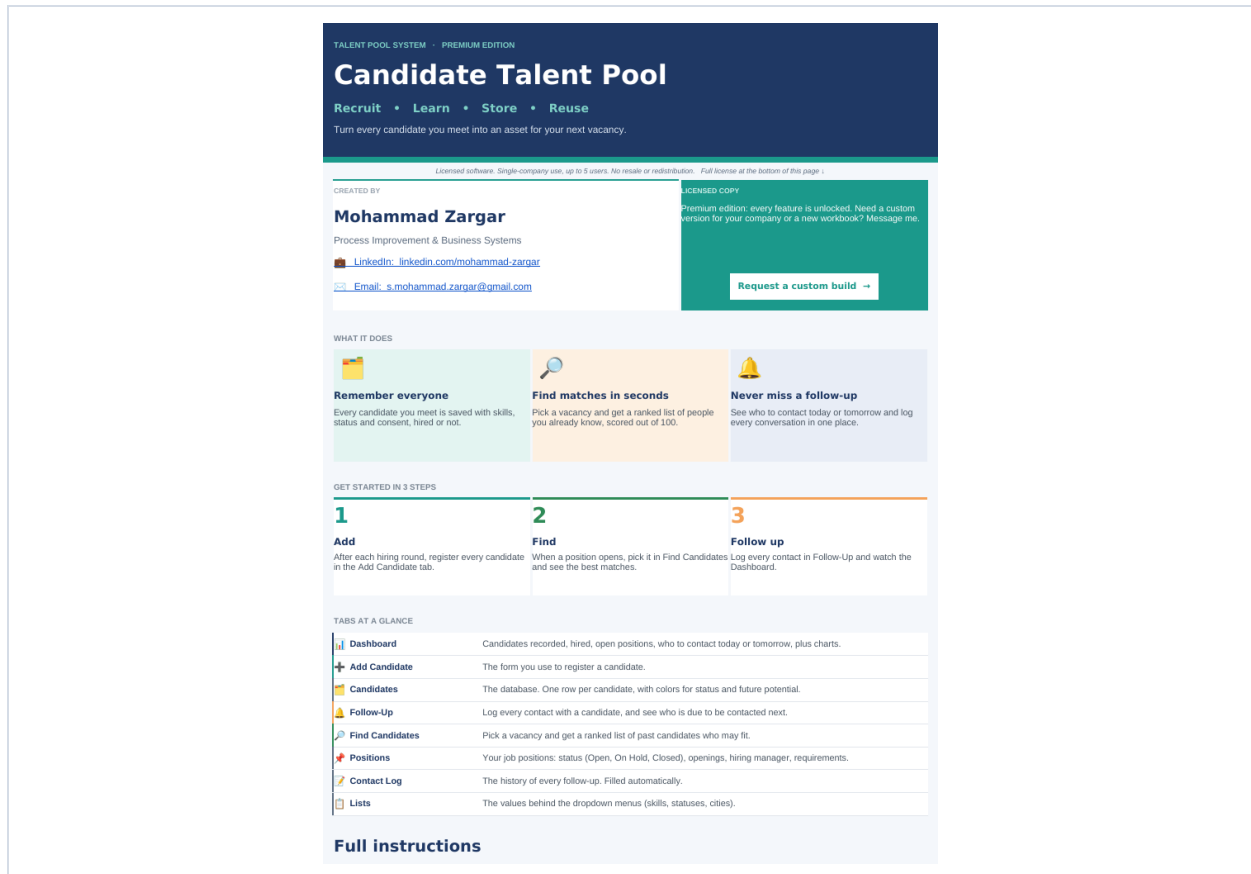

Figure 2. Start Here: creator card, "What it does" tiles and the 3 steps

3.2 Dashboard

The Dashboard updates by itself. You never type here.

- **Candidates recorded:** how many people are in your pool.
- **Accepted (hired):** how many were hired and their share of the pool.
- **Open positions:** positions with status Open and the total openings to fill.
- **Due today or tomorrow:** who to contact next, with a Today or Tomorrow label and their future fit.
- **Days open:** turns red after 30 days, a sign that a position is taking too long.

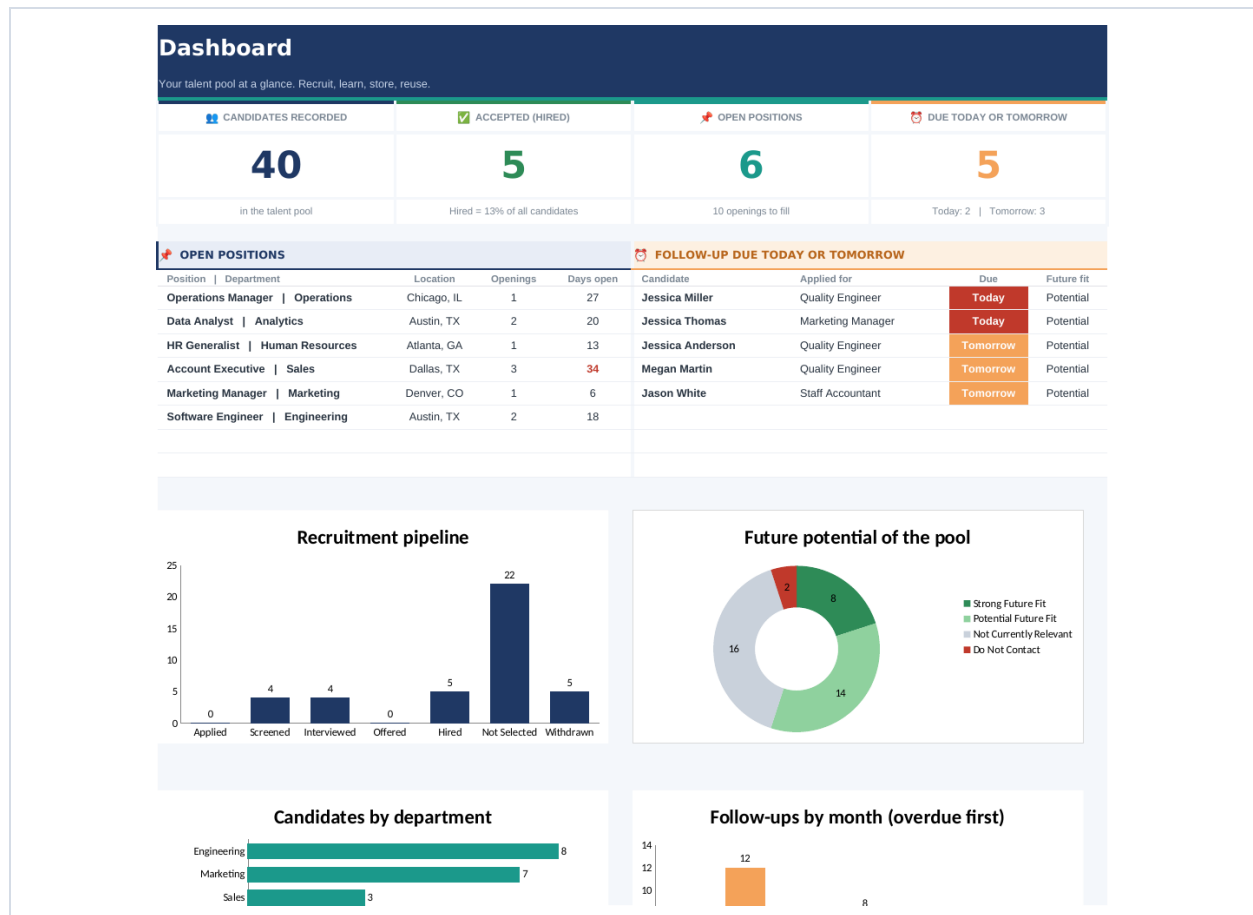

Figure 3. Dashboard: key numbers, open positions, follow-ups and charts

3.3 Add Candidate

Use this form after each hiring round. It takes about one minute per person.

1. Open the Add Candidate tab.
2. Fill in the yellow cells from top to bottom. Use the dropdown arrows wherever you see one. Required fields are explained in the hint column.
3. Click the ADD CANDIDATE button (or the menu Talent Pool > Add candidate).
4. The form clears and the candidate appears at the bottom of the Candidates tab with an ID such as CAN-2026-00041.

Add a Candidate

Step 1: fill the yellow cells. Step 2: click the ADD CANDIDATE button (or menu Talent Pool > Add candidate).

1. About the candidate

Name	e.g. Jessica Taylor
Contact	e.g. jessica.taylor@email.com or (555) 123-4567
Position applied for	Pick from the list
Department (automatic)	Filled in for you

2. Skills and fit

Skill 1	Pick from the list. Required
Skill 2	Optional
Skill 3	Optional
Skill 4	Optional
Skill 5	Optional
Years of experience	Whole years, e.g. 4
Expected salary (USD/year)	Annual salary in USD, e.g. 85000
Location	Pick from the list
Notice period (days)	Days until they could start, e.g. 14

3. Hiring outcome

Source	Where the candidate came from
Recruitment status	What happened in this hiring round
Future potential	Could this person fit a FUTURE role? (separate from status)
Reason for decision	Short note, e.g. Salary above budget

4. Future contact

Interested in future roles?	Yes / No
Consent to keep their data?	Must be Yes to be used in matching
Next follow-up date	When to contact them again

Tip: all data in this file is fictional demo data.
Yellow = you type or pick. Grey = automatic.

Figure 4. Add Candidate: yellow cells to fill, hints on the right

Consent matters

Choose Yes for "Consent to retain data" only if the candidate agreed to be kept in your talent pool. Candidates without consent never appear in match results.

3.4 Candidates

This is your database: one row per candidate, with colors for status and future potential. Use the filter arrows to sort and search. The grey helper columns on the right are used by formulas, so leave them alone.

Candidate ID	Date Added	Name	Contact	Position Applied	Department	Skills	Years of Experience	Expected Salary (\$/year)	Location	Notice Period (days)	Source	Recruitment Status	Future Potential	Reason for Decision	Interested in Future Roles	Consent to Retain Data	Next Follow-up Date	Last Contact Date	Last Contact Outcome

Figure 5. Candidates: one row per person (first rows shown)

Recruitment status is what happened in this hiring round. **Future potential** is whether you would consider the person for a different role later.

Each row is one job position. Add a new position in the next empty row (up to row 51); it appears in the dropdowns right away. Only positions with status Open are counted on the Dashboard.

Figure 6. Positions: department, location, budget, required skills and status

4. Premium tabs: Find, Follow Up, Log

The following three tabs are **Premium features**. In the Demo edition they are visible but locked so you can see exactly what you would get.

4.1 Find Candidates (Premium)

- Open the Find Candidates tab.
- Choose the position in the yellow cell at the top. Department, minimum experience, location, budget and required skills appear automatically.
- Read the Top 10 list. Each person has a score out of 100, a bar, a rating and the points earned per criterion.
- Contact the best candidates, then record the contact in the Follow-Up tab.

Find Candidates for a Vacancy

A new position is open. Do we already know someone? The score is calculated automatically, you do not enter it.

Step 1: choose the vacancy

5

How the score works (out of 100 points)

Each candidate earns points for each criterion. Add them up and you get the match score. You can change the points in the yellow cells; keep the total at 100.

Skills	40	Share of the required skills the candidate has, 4 of 5 skills = 80% of the points.
Experience	25	Full points if the candidate has at least the minimum years. Fewer years = a proportion of the points.
Department	15	Full points if the candidate applied in the same department as this vacancy.
Location	10	Full points if the candidate lives in the same city as the job.
Availability	5	Full points if they can start within 30 days, half within 60 days.
Salary	5	Full points if their expected salary is within the budget.
Total points (should be 100)	100	OK

Rating: 70 or more = Strong match. 50 to 69 = Possible match. Below 50 = Weak match. Hired, Do Not Contact and no-consent records are never shown.

Top 10 past candidates for: Marketing Manager

Candidate	ID	Applied for	Location	Years exp.	Status	Future potential	Score (0-100)	Match	Rating	Skills pts	Experience pts	Department pts	Location pts	Availability pts	Salary pts
1. Sarah Martinez	CAN-2026-00023	Marketing Manager	Atlanta, GA	6	Not Selected	Not Currently Relevant	85		Strong match	40.0	25.0	15.0	0.0	5.0	0.0
2. Nicole Brown	CAN-2026-00007	Marketing Manager	Atlanta, GA	5	Not Selected	Strong Future Fit	82		Strong match	32.0	25.0	15.0	0.0	5.0	5.0
3. Ashley Williams	CAN-2026-00009	Marketing Manager	Austin, TX	10	Withdrawn	Not Currently Relevant	82		Strong match	32.0	25.0	15.0	0.0	5.0	5.0
4. Jessica Thomas	CAN-2026-00013	Marketing Manager	Austin, TX	10	Not Selected	Potential Future Fit	69		Possible match	24.0	25.0	15.0	0.0	5.0	0.0
5. Ashley Thomas	CAN-2026-00020	Marketing Manager	Columbus, OH	3	Withdrawn	Potential Future Fit	62		Possible match	24.0	15.0	15.0	0.0	2.5	5.0
6. Ashley Thompson	CAN-2026-00010	Marketing Manager	Atlanta, GA	1	Screened	Strong Future Fit	57		Possible match	32.0	5.0	15.0	0.0	5.0	0.0
7. Emily Martinez	CAN-2026-00038	HR Generalist	Denver, CO	9	Not Selected	Not Currently Relevant	53		Possible match	8.0	25.0	0.0	10.0	5.0	5.0
8. Nicole Miller	CAN-2026-00034	Data Analyst	Columbus, OH	8	Not Selected	Strong Future Fit	49		Weak match	16.0	25.0	0.0	0.0	2.5	5.0
9. Daniel Brown	CAN-2026-00028	HR Generalist	Dallas, TX	6	Withdrawn	Not Currently Relevant	43		Weak match	8.0	25.0	0.0	0.0	5.0	5.0
10. Jessica Miller	CAN-2026-00008	Quality Engineer	Atlanta, GA	10	Screened	Potential Future Fit	41		Weak match	8.0	25.0	0.0	0.0	2.5	5.0

Figure 7. Find Candidates: ranked list with score, bar and rating

How the score works

Criterion	Points	How it is earned
Skills	40	The share of required skills the candidate has. 4 of 5 skills earns 80% of the points.
Experience	25	Full points at or above the minimum years; fewer years earn a proportion.
Department	15	Full points if the candidate applied in the same department.
Location	10	Full points if the candidate is in the same city as the job.
Availability	5	Full points if they can start within 30 days, half within 60 days.
Salary	5	Full points if their expected salary is at or below the budget.

Ratings: 70 or more = Strong match. 50 to 69 = Possible match. Below 50 = Weak match.

Who is never shown: people with status Hired, people marked Do Not Contact, and people without consent.

Customize: Premium lets you change the points in the yellow cells. Keep the total at 100.

Important

The score helps a recruiter decide who to review first. It does not decide who gets hired. A person always makes the final decision.

4.2 Follow-Up (Premium)

Part B lists who is due within 30 days (overdue contacts are in red). Part A is where you log each contact.

9. Open the Follow-Up tab and check the "Due now" list in Part B.
10. In Part A, pick the candidate from the dropdown. Check that the name shown below it is the right person.
11. Enter the date you contacted them (MM/DD/YYYY) and choose the outcome. Add a note and a next follow-up date if needed.
12. Click the SAVE FOLLOW-UP button (or the menu Talent Pool > Save follow-up).

Follow-Up

Part A: log what happened when you contacted a candidate. Part B: see who is due to be contacted next.

A. Log a follow-up

- Choose the candidate
Candidate (automatic) Pick from the list (ID | name)
Check that this is the right person
- Date you contacted them e.g. 10/05/2026 (MM/DD/YYYY)
- Outcome What was the result?
- Notes (optional) Short note
- Next follow-up date (optional) Leave empty if no more follow-up is needed

Then click SAVE FOLLOW-UP (or menu Talent Pool > Save follow-up).

B. Due now (next 30 days, including overdue)

Total due: 13

Candidate ID	Name	Contact	Last position applied	Future potential	Next follow-up	Status	Last contact	Last outcome
CAN-2026-00007	Nicole Brown	nicole.brown@example.com	Marketing Manager	Strong Future Fit	10/16/2026	Due in 11 days

CAN-2026-00025	Amanda Thompson	amanda.thompson@example.com	HR Generalist	Potential Future Fit	10/08/2026	Due in 3 days		
CAN-2026-00026	Jason White	jason.white@example.com	Staff Accountant	Potential Future Fit	10/06/2026	Due in 1 days		
CAN-2026-00031	Kevin Taylor	kevin.taylor@example.com	Account Executive	Strong Future Fit	10/03/2026	Overdue by 2 days		
CAN-2026-00034	Nicole Miller	nicole.miller@example.com	Data Analyst	Strong Future Fit	10/31/2026	Due in 26 days		
CAN-2026-00036	Christopher Thompson	christopher.thompson@example.c	Software Engineer	Potential Future Fit	10/02/2026	Overdue by 3 days		
CAN-2026-00037	Ashley Miller	ashley.miller@example.com	Data Analyst	Potential Future Fit	10/12/2026	Due in 7 days		
CAN-2026-00040	Megan Martinez	megan.martinez@example.com	HR Generalist	Strong Future Fit	10/31/2026	Due in 26 days		

Figure 8. Follow-Up: log a contact (Part A) and see who is due (Part B)

Outcome	What happens
Interested	Stays in the pool; the next follow-up date is updated.
No response	Stays in the pool; set a new follow-up date.
Hired elsewhere	Follow-up is cleared unless you enter a new date.
Not interested	Marked "Interested in future roles = No" and removed from follow-up.
Do not contact again	Marked Do Not Contact and excluded from all matching.

4.3 Contact Log (Premium)

The history of every follow-up. It is filled automatically when you save a follow-up, so you never type here.

Contact Date	Candidate ID	Name	Outcome	Notes	Next Follow-up Date	Logged At
09/28/2026	CAN-2026-00001	Jason Martinez	Interested	Initial contact	12/05/2026	09/20/2026
09/28/2026	CAN-2026-00004	Ashley Martinez	Interested	Initial contact	12/31/2026	09/20/2026
09/20/2026	CAN-2026-00005	Joshua Martinez	No response	Initial contact	12/30/2026	09/20/2026
09/24/2026	CAN-2026-00007	Nicole Brown	Interested	Initial contact	10/16/2026	09/20/2026
09/20/2026	CAN-2026-00010	Ashley Thompson	Interested	Initial contact	12/15/2026	09/20/2026

Figure 9. Contact Log: automatic history of every contact

5. What you see in the Demo edition

The Demo is fully readable. The premium tabs show their real layout and example results but are protected, so you cannot change them. A banner at the top of each locked tab says "Premium feature".

Figure 10. Demo edition: Find Candidates is visible but locked

- Locked tabs are marked with a lock symbol in the tab guide on Start Here.
- The Dashboard, Add Candidate, Candidates and Positions tabs remain available.
- To unlock everything and use your own data, request Premium access.

6. Premium features and customization

What Premium includes

- **Smart matching:** a ranked Top 10 list for any vacancy, scored out of 100 with a full breakdown.
- **Follow-up system:** log every contact, update dates automatically, and see who is due or overdue.
- **Contact Log:** a complete, automatic history of every conversation.
- **Editable scoring:** change the weights to match what matters most to your company.
- **Your own copy with edit access,** so you can use it with your own candidates and positions.

What you can customize yourself

- Dropdown lists: skills, cities, sources and statuses (Lists tab).
- Job positions, departments, openings and priorities (Positions tab).
- Scoring weights on Find Candidates (Premium).

What I can customize for you

Every company recruits differently. If you need more than the standard workbook, I can build it for you:

- Your company branding, colors and logo.
- Your own fields, departments, roles and dropdown values.
- A scoring model tuned to your hiring criteria (for example certifications, languages, or seniority).
- More capacity than 200 candidates and 50 positions.
- Extra dashboards, reports and monthly summaries for management.
- Training for your team and a short onboarding session.
- Similar workbooks for other processes (onboarding, training tracking, vendor management and more).

Let us talk

Tell me about your recruiting process and I will suggest the simplest setup that works.

7. Legal cautions

Recruiting data is sensitive personal data. Please read this section before you store any real candidate information.

This guide and workbook are not legal advice

Laws differ by country, state and industry. Ask your legal counsel or HR compliance team to review how you use this system.

Candidate data and privacy

- **Consent.** Keep a candidate in the pool only with their consent, and record it in the "Consent to retain data" field. Without consent, delete the record or keep it out of the pool.
- **Data minimization.** Store only what you need to evaluate candidates for jobs. Do not store Social Security numbers, birth dates, photos, or details about health, religion, ethnicity or other protected characteristics.
- **Retention.** Decide how long you keep candidate data and delete records when the period ends or when a candidate asks. Rules such as GDPR (EU/UK) and the CCPA/CPRA (California) may give candidates rights to access and delete their data.
- **Access.** Share the file only with people who need it. Google Sheets sharing is your responsibility; use a company account, restrict edit access, and remove people who leave.

Fair hiring

- **The score is an aid, not a decision.** A person must make every hiring decision. Do not reject anyone only because of a score.
- **Avoid discrimination.** Do not use the "Reason for decision" or notes fields to record protected characteristics. Equal employment laws apply to how you use any screening tool.
- **Automated tools.** Some jurisdictions regulate automated tools used in hiring, including notice or audit duties. Check the rules where you recruit.
- **Do Not Contact.** Respect it. Candidates marked Do Not Contact are excluded from matching and should not be contacted.

Data and the workbook

- The workbook runs in your own Google account. The creator does not receive your candidate data.
- Demo data (names, emails, numbers) is entirely fictional. Delete it before you enter real data.
- Back up your file regularly (File > Version history and File > Make a copy).
- Fields and formulas are provided as is. Check results before you rely on them.

8. License agreement (summary)

By using this workbook, you agree to the terms below. This is a summary template, not legal advice.

Term	What it means
1. Grant	The Licensor, Mohammad Zargar, grants you a non-exclusive, non-transferable license to use this workbook and its script for the internal recruiting work of ONE company or organization.
2. Users	One license covers up to 5 named users (email addresses) within that company.
3. Not allowed	Reselling, sharing, publishing, sublicensing or distributing the workbook, in whole or in part, to anyone outside your license. Removing the license notice or the creator's name is not allowed.
4. Your data	Your candidate data stays yours. The Licensor does not receive it. You are responsible for storing it lawfully and with candidate consent.
5. Ownership	The design, formulas, scoring method, script and this guide remain the intellectual property of the Licensor. You may modify your own copy for internal use.
6. No warranty	Provided "as is", without warranty. The match score supports a recruiter's review and never replaces a human hiring decision. The Licensor is not liable for hiring decisions or data loss.
7. Termination	The license ends automatically if you break these terms.

Questions about licensing, team licenses or custom builds: s.mohammad.zargar@gmail.com.

9. Troubleshooting

Problem	Solution
"Script function could not be found"	The button is assigned to a script name that does not match. Use exactly addCandidate or saveFollowUp (capital letters matter).
The match list is empty	No eligible candidates. Check that candidates have consent = Yes and are not Hired or Do Not Contact.
A dropdown is empty or lacks a value	Add the value in the Lists tab (or the Positions tab for positions).
Numbers look wrong	Dates must be real dates (MM/DD/YYYY) and salary must be a plain number.
A tab is locked and I cannot type	You are using the Demo edition. Premium tabs are locked; request Premium access.
A formula was overwritten	Use Edit > Undo, or File > Version history to restore an earlier version.

Capacity: the workbook is built for up to 200 candidates and 50 positions.
